## At the camp

### Language

Language at the camp will be ENGLISH.

Other languages will be discouraged, even into the communication inside national team. We know it could sound strange now, but speaking same language all the time we'll be easier and open the relationship between the Youngsters.

For some of you english could be hard but at the end of the camp your english will be better. Don't be afraid, everyone will try to make communication possible, and don't hesitate to request help when you don't understand.
