WHAT IS YOTA ONLINE?

The Youth Working Group within the IARU Region 1 created a new program called "YOTA online". In these monthly gatherings we will try to bring the YOTA feeling towards the online community and spread the word that there is youth in ham radio. A YOTA team consisting of active youngsters will present different topics, while answering questions from the community. There will also be a section where different recent YOTA event hosts will be able to present the highlights, while also giving participants the opportunity to share stories. These sessions are also interesting if you want to learn more about organizing such amateur radio events for young people. This will be followed by a Q&A session with the group presenting. At the end of the event we will also do a prize raffle including a little riddle amongst all participants.
